Table of contents

FOREWORD

Section 10 - GENERAL

- Group 05 - Safety
- Group 10 - Specifications
- Group 15 - Tune-Up and Adjustment
- Group 20 - Fuels and Lubricants

Section 20 - ENGINE

- Group 05 - Remove and Install Engine
- Group 10 - Cooling System

Section 30 - FUEL AND AIR

- Group 05 - Air Intake System
- Group 10 - Diesel Fuel System

Section 40 - ELECTRICAL SYSTEM

- Group 05 - Batteries
- Group 10 - Harness and Connector Repair
- Group 15 - Wire Harness Routing
- Group 20 - Controllers and Power Distribution
- Group 25 - Lighting
- Group 30 - Operators Station
- Group 35 - Sensors and Switches
- Group 40 - Wiper
- Group 45 - Alternator
- Group 50 - Starting Motor
- Group 55 - GreenStar Components

Section 50 - POWER TRAIN

- Group 05 - Transmission and Differential—Three Speed Transmission
- Group 10 - Transmission and Differential—Two-Range Automatic Transmission
- Group 15 - Hydrostatic Drive Pump—Two-Range Automatic Transmission
- Group 20 - Hydrostatic Drive Motor—Two-Range Automatic Transmission
- Group 25 - Single Reduction Final Drive
- Group 30 - Cam Lobe Motor
- Group 35 - Tires and Wheels

Section 60 - STEERING AND BRAKES

- Group 05 - Steering
- Group 10 - Brakes
- Group 15 - Brakes—Two-Range Automatic Transmission

Section 70 - HYDRAULIC SYSTEM

- Group 05 - Hydraulic Reservoir
- Group 10 - Hydraulic Motors and Pumps
- Group 15 - Hydraulic Valves
- Group 20 - Hydraulic Cylinders
- Group 25 - Accumulators

Section 80 - SEPARATOR SHELL

- Group 05 - Gull Wing Doors
- Group 10 - Fiberglass Repair

Section 90 - OPERATOR STATION

- Group 05 - Air Conditioning System (R134a)
- Group 10 - System Components
- Group 15 - Cab

Section 110 - FEEDER HOUSE

- Group 05 - Conveyor
- Group 10 - Top Shaft and Slip Clutch

Group 15 - Feeder House Drives and Reverser Gear Case

Group 20 - Fore Aft and Lateral Tilt Frame

Group 25 - Five Speed Feeder House Drive Gear Case

Section 120 - SEPARATOR

Group 05 - Separator Repair

Group 10 - Separator Drives

Group 15 - Residue Disposal

Group 20 - Conveyor Augers, Cleaning Fan and Chaffer and Sieve Frame

Group 25 - Tailings Elevator and Augers

Group 30 - Primary Countershaft Gear Case

Group 35 - Header Electromagnetic Clutch

Section 130 - GRAIN TANK AND UNLOADING SYSTEM

Group 05 - Grain Tank Cross Augers

Group 10 - Unloading Auger System Drives

Group 15 - Vertical Unloading Auger and Lower Gear Case

Group 20 - Horizontal Unloading Auger and Gear Case

Group 25 - Clean Grain Elevator

Section 140 - ENGINE GEAR CASE AND CONTROL VALVE

Group 05 - Engine Gear Case and Valve

Section 199 - DEALER FABRICATED TOOLS

Group 05 - Dealer Fabricated Tools

Foreword

This manual is written for an experienced technician. Essential tools required in performing certain service work are identified in this manual and are recommended for use.

Live with safety: Read the safety messages in the introduction of this manual and the cautions presented throughout the text of the manual.

CAUTION:

This is the safety-alert symbol. When you see this symbol on the machine or in this manual, be alert to the potential for personal injury.

Technical manuals are divided in two parts: repair and operation and tests. Repair sections tell how to repair the components. Operation and tests sections help you identify the majority of routine failures quickly.

Information is organized in groups for the various components requiring service instruction. At the beginning of each group are summary listings of all applicable essential tools, service equipment and tools, other materials needed to do the job, service parts kits, specifications, wear tolerances, and torque values.

Technical Manuals are concise guides for specific machines. They are on-the-job guides containing only the vital information needed for diagnosis, analysis, testing, and repair.

Fundamental service information is available from other sources covering basic theory of operation, fundamentals of troubleshooting, general maintenance, and basic type of failures and their causes.

Thank you very much
for your reading.
