Download Operator's Manual For JCB Compactor (For 2CX/3CX/4CX Backhoe Loaders).
Part No. 9801/0144-03

This operator's manual is arranged to give you a good understanding of the machine and its safe operation. It also contains maintenance and technical data. Read this manual from the front to the back before you use the machine for the first time, even if you have used machines of a similar / same type before as the technical specification, systems and controls of the machine may have changed. Particular attention must be given to all the safety aspects of operating and maintaining the machine.. With this in-depth & highly detailed manual you will be able to operate on your vehicle with the absolute best resources available, which will not only save you money in repair bills but will also help you to look after your bussiness.

Models Covered:

Carrier Machine Suitability

The Compactors are suitable for use with the JCB 2CX/3CX/4CX Backhoe Loaders when installed with the correct hydraulic circuit. Your JCB Distributor will advise you on the suitability of your machine.

The Compactors is designed to suit machines which produce a Hydraulic Flow of 24 l/min (5.27 UK gal/min).

Please set the rpm of machine to give the correct hydraulic flow.

The Compactors may be suitable for use with non JCB carriers if they meet the mechanical and hydraulic requirements (Refer to Specification section). You are advised to contact your JCB Distributor for advice.
