## Table of contents

### **FOREWORD**

#### **Section 210 - SAFETY**

Group 05 - Safety Precautions

#### **Section 211 - DIAGNOSTIC TROUBLE CODES**

Group HCU - HCU Diagnostic Trouble Codes

Group RCU - RCU Diagnostic Trouble Codes

#### **Section 220 - ENGINE**

Group 10 - Engine Tests

#### **Section 230 - FUEL, AIR INTAKE AND COOLING SYSTEMS**

Group 10 - System Diagnosis

Group 15 - System Tests

Group 20A - Fuel System

Group 20B - Air Intake System

Group 20C - Cooling System

Group 20D - Cold Weather Starting Aids

#### **Section 240 - ELECTRICAL SYSTEM**

Group 05 - System Information

Group 10 - System Diagrams, Cab

Group 10A - System Diagrams, 2-Post ROPS

Group 15 - Sub-System Diagnostics, Cab

Group 15A - Sub-System Diagnostics, 2-Post ROPS

Group 20 - References

#### **Section 250 - SYNCROPLUS TRANSMISSION**

Group 05 - Operational Checks

Group 10 - System Diagnosis

Group 15 - System Tests

Group 20 - Theory of Operation - Syncroplus Transmission

Group 20A - Theory of Operation - Perma Clutch II

Group 20B - Theory of Operation - Gear Transmission

Group 20C - Theory of Operation - Creeper Transmission

Group 20D - Theory Of Operation - Range Transmission

#### **Section 255 - POWRQUAD TRANSMISSION**

Group 05 - Operational Checks

Group 10 - System Diagnosis

Group 15 - Adjustments

Group 20 - Theory of Operation - Powrquad Transmission

#### **Section 256 - DRIVE SYSTEMS (WITHOUT TRANSMISSION)**

Group 05 - Operational Checks

Group 10 - System Diagnosis

Group 15 - System Tests

Group 20A - Theory of Operation - Front-Wheel Drive Clutch

Group 20B - Theory of Operation - Differential

Group 20C - Theory of Operation - Final Drives

Group 20D - Theory of Operation - Rear PTO Options

#### **Section 260 - STEERING AND BRAKES**

Group 05 - Operational Checks

Group 10 - System Diagnosis

Group 15 - System Tests

Group 20 - Theory of Operation (Complete System)

Group 20A - Hydrostatic Steering

Group 20B - Hydraulic Brakes

**Section 270 - HYDRAULIC SYSTEM**

Group 05 - Operational Checks

Group 10 - System Diagnosis

Group 15 - System Tests

Group 20 - Hydraulic System

Group 20A - Charge Pump

Group 20B - Hydraulic Pump

Group 20C - Hydraulic System Valves

Group 20D - Rockshaft and Lift Cylinders

Group 20E - Selective Control Valves and Couplers

Group 20F - Independent Control Valve

**Section 290 - OPERATOR'S STATION**

Group 05 - Operational Checks

Group 10A - Air Conditioning - System Diagnosis

Group 10B - Ventilation and Heater - System Diagnosis

Group 10C - Operator's Seat - System Diagnosis

Group 20A - Air Conditioning System - Theory Of Operation

Group 20B - Ventilation and Heater - Theory of Operation

**Section 299 - SPECIAL TOOLS (DEALER-FABRICATED)**

Group 05 - Special Tools (Dealer-Fabricated)

## Foreword

This manual is written for an experienced technician. Essential tools required in performing certain service work are identified in this manual and are recommended for use.

Live with safety: Read the safety messages in the introduction of this manual and the cautions presented throughout the text of the manual.

 This is the safety-alert symbol. When you see this symbol on the machine or in this manual, be alert to the potential for personal injury.

Technical manuals are divided in two parts: repair and operation and tests. Repair sections tell how to repair the components. Operation and tests sections help you identify the majority of routine failures quickly.

Information is organized in groups for the various components requiring service instruction. At the beginning of each group are summary listings of all applicable essential tools, service equipment and tools, other materials needed to do the job, service parts kits, specifications, wear tolerances, and torque values.

Technical Manuals are concise guides for specific machines. They are on-the-job guides containing only the vital information needed for diagnosis, analysis, testing, and repair.

Fundamental service information is available from other sources covering basic theory of operation, fundamentals of troubleshooting, general maintenance, and basic type of failures and their causes.

Thank you very much  
for your reading.
