Parts Manual

Marine Generator Set

MDKBH (Spec A-F)

Introduction

This parts catalog applies to the standard generator set listed below. Parts are arranged in groups of related items and each illustrated part is defined by a reference number corresponding to the same reference number in the parts list. Parts illustrations are typical. Using the model and specification number from your generator set nameplate, select parts that apply to your set. Unless otherwise mentioned in the description or page heading, parts are interchangeable between models. Throughout this catalog right and left sides are determined by facing the engine end (front) of the set.

<u>MODEL</u>	<u>HERTZ</u>
4MDKBH	50
5MDKBH	60

* - The diagonal line (/) or dash (-) in the model and specification number separates generator set characteristics from the specification number and letter. The specification number denotes customer requested options or deviations from a standard model. The specification letter advances (A to B, B to C, etc.) with major manufacturing changes.
