Introduction

Foreword

This manual is written for an experienced technician. Essential tools required in performing certain service work are identified in this manual and are recommended for use.

Live with safety: Read the safety messages in the introduction of this manual and the cautions presented throughout the text of the manual.

This is the safety-alert symbol. When you see this symbol on the machine or in this manual, be alert to the potential for personal injury.

Technical manuals are divided in two parts: repair and operation and tests. Repair sections tell how to repair the components. Operation and tests sections help you identify the majority of routine failures quickly.

Information is organized in groups for the various components requiring service instruction. At the beginning of each group are summary listings of all applicable essential tools, service equipment and tools, other materials needed to do the job, service parts kits, specifications, wear tolerances, and torque values.

Technical Manuals are concise guides for specific machines. They are on-the-job guides containing only the vital information needed for diagnosis, analysis, testing, and repair.

Fundamental service information is available from other sources covering basic theory of operation, fundamentals of troubleshooting, general maintenance, and basic type of failures and their causes.

Contents

Section 00—General Information

Group 0001—Safety
Group 0003—Torque Values

Section 01—Tracks

Group 0130—Track System

Section 02—Axles and Suspension

Group 0201—Drive Axle Housing and Support
Group 0250—Axle Shaft, Bearings, and Reduction
Gears

Section 03—Transmission

Group 0315—Controls Linkage
Group 0325—Flywheel Coupler
Group 0360—Hydraulic System

Section 04—Engine

Group 0400—Removal and Installation

Section 05—Engine Auxiliary Systems

Group 0510—Cooling System
Group 0515—Speed Control Group
Group 0560—External Fuel Supply System

Section 17—Frame or Supporting Structure

Group 1740—Frame Installation

Section 18—Operator's Station

Group 1800—Removal and Installation
Group 1810—Operator's Enclosure
Group 1821—Seat and Seat Belt
Group 1832—Air Conditioning System

Section 19—Sheet Metal and Styling

Group 1910—Hood or Engine Enclosure

Section 31—Loader

Group 3104—Attachment Coupler
Group 3115—Control Linkage
Group 3140—Frame
Group 3160—Hydraulic System

Section 99—Dealer Fabricated Tools

Group 9900—Dealer Fabricated Tools
