13	Grapple cylinder

The forwarder is equipped with a hydraulic boom boom with grapple which is used to load cut timber into the log bunk.

The boom has five cylinders which may require periodic maintenance or repair. The slew rotation cylinders at the base of the tower rotate the entire boom up to 190° from center in either direction (380° total slewing angle). The main boom cylinder, mounted on the tower, raises and lowers the boom and jib sections together. The jib cylinder, mounted on the main boom, raises and lowers the jib section of the boom. The extension cylinder, mounted inside the jib extends and retracts the extension boom. The grapple cylinder, mounted on the grapple, opens and closes the grapple.

The boom is controlled using joysticks on the armrests of the seat. The left joystick controls jib boom Up / Down, slew rotation and extension boom extend retract. The right joystick controls main boom Up / Down, grapple rotation. The Seat Direction Switch on the seat pedestal enables the boom controls only when the seat is facing the rear.

When the boom's main boom is raised, the frame brake is automatically engaged. The frame brake provides stability by locking the front and rear frame together, preventing them from tilting independently. The frame brake can be disengaged by a switch on the dashboard.

TM2123 - John Deere TIMBERJACK 810D, 1010D, 1110D, 1410D, 1710D Wheeled Forwarder Technical Service Manual-

Illustrated Factory Diagnostic and Repair Technical Service Manual for John Deere / TIMBERJACK Wheeled Forwarders Models 810D, 1010D, 1110D, 1410D, 1710D This manual contains high quality images, circuit diagrams, instructions to help you to maintenance, troubleshooting, diagnostic, and repair your truck. This document is printable, without restrictions, contains searchable text, bookmarks, crosslinks for easy navigation. Language: English Format: PDF, 992 pages Covered models: 810D (SN. from WJ810D001405) 1010D (SN. from WJ1010D003505) 1110D (SN. from WJ1110D001125) 1410D (SN. from WJ1410D0001475) 1710D (SN. from WD1710D000375) 810D (SN. from WJ810D001405)
